In making the decision to adopt a new cat/kitten you are making a major commitment. Remember your new family member can live to be over 20 years old and being a family member, this cat deserves the same consideration, respect, love and care that anyone in your family would expect. Millions of animals are killed in the shelters every year because they were "spur of the moment". We encourage you to really consider if you can afford to and care for this cat for up to, and hopefully more than, 20 years. This is an adjustment in the way you live. You are going to be responsible for an innocent life that relies on you for virtually everything (food, water, shelter, medical care, love and compassion) and in return, you will have a constant companion to love and who will love you in return.

I have seriously decided to make this commitment (initial here): \_\_\_\_\_
